• The findings and report
• Appendix
How We Got Here
Lots of talk for a long time

• How much of a threat are Paddock Lake, Silver Lake, and Twin Lakes to Salem’s borders?
• What’s the difference between a town and village?
  – What do we gain? What do we lose?
  – What does it buy us?
  – What do we risk by leaving things the same?
• What would being a village cost us?
• How will it cost to make the change?
Previous Referendum

- Advisory referendum of 9/14/2010 to study incorporation failed
- Generally assumed that voters were concerned about costs of becoming and being a village
Elector’s Motion

• At 2014 Annual Electors Meeting, a motion was approved to study incorporation

“MOTION BY Elector Kyle Christensen, second by Tim Squier to request that the Town Board form a committee to investigate the possibility of incorporation.”

- from minutes of 2014 Annual Electors Meeting
How the committee got started

The Project Charter
Charter Purpose

• A project charter provides...
  – Project vision, objectives, scope, and deliverables
  – Project organization
  – Project implementation
  – Risks and Issues

(Per LinkedIn.com The Project Manager Network)

<tr>
<td>Background</td>
<td>• Previous advisory referendum failed</td>
</tr>
<tr>
<td></td>
<td>• Motion approved at 2014 Annual Electors Meeting for Board to appoint a committee to investigate incorporation</td>
</tr>
</tbody>
</table>
Project Goal & Objectives

Goal Statement • Address elector’s motion at 2014 Annual Electors Meeting

“MOTION BY Elector Kyle Christensen, second by Tim Squier to request that the Town Board form a committee to investigate the possibility of incorporation.”

Objectives • Determine the differences of a town form of municipal government versus the village form based on state statute and regulation
• Overlay how well the Town of Salem satisfies those statutes and regulations
• Understand the costs associated with each
Project Schedule

Schedule/Milestones

- Appointments to Committee: 9/8/14
- 1st committee meeting: 9/17/14
- Charter approved by Board: 10/13/14
- Workplan developed by Committee: 10/22/14
- First findings by Committee, plan for gaps developed: 11/15/14
- Current State Analysis completed: 01/11/15
  - Feedback from Board: 1/26/15
- Future Possibilities completed: 2/10/15
  - Feedback from Board: 2/23/15
- Effecting the Change completed: 4/5/15
  - Feedback from Board: 4/20/15
- Recommended Next Steps: 4/18/15
  - Feedback from Board: 4/20/15
- Presentation to residents: Special Electors Meeting

Deliverables, cont.

• Questions to be addressed
  – Annexation
  – Relationship with DNR
  – DNR authorities
  – Public Safety vs. Police vs. Sheriff
  – Incorporation Process & Costs
The committee’s approach
A “Re-engineering” Approach

Understand where we are...

"Current State"

Determine where we (may) want to go...

“Future Possibilities”

Determine how to get from where we are to where we (may) want to go...

"Making the Change"
1. Current State Analysis
   – A study of the services that the Town of Salem presently provides including service levels, their determinants, and the ensuing costs

2. Future Possibilities
   – A study of the potential paths forward for the Town of Salem

3. Making the Change
   – The processes to go from where we are to where we might want to be

4. Recommended Next Steps
Organizations and documents consulted

- Town of Somers
- Village of Bristol: Randy Kerkman
- Village of Bloomfield: Ken Munroe
- Department of Natural Resources
- Towns Association
- Department of Administration: Erich Schmidtke & Renee Powers
- Kenosha County Sheriff: Dave Beth
- Kenosha County Planning & Development: Andy Buehler
- Kenosha County GIS: Al Brokmeier
- Town of Menasha
- Paddock Lake/Salem Cooperative Plan
- Salem Utility District: Brad Zaulke
- Southeast Wisconsin Regional Planning Council

- State Statutes
- Salem Highway Dept: Mike Murdoch
- Salem Fire & Rescue: Mike Slover
- Salem Building Inspection: Jack Rowland
- Salem Town Clerk: Cindi Ernest
- Salem Town Treasurer: Kris Lamb
- Salem Town Assessor: Rocco Vita
- State Representative to the Assembly (Staff)
- Community Library Board Member: Gail Peckler-Dziki
- Community Library Director: LeeAnn Briese
- League of Wisconsin Municipalities: Claire Silverman, Legal Counsel
Current State Analysis

“A study of the functions and services that the Town of Salem presently provides including service levels, their determinants, and the ensuing costs.”

“One half of knowing what you want is knowing what you must give up before you get it.”

- Sidney Howard, author & screenwriter
3-Pronged Approach

• Top-Down: Study of State Statutes
• Bottom-Up: Interviewing Department Heads
• Follow-the-Money: Analysis of the Town of Salem budget
Town of Salem Background

“Established in 1842, the Town of Salem is a small, rural community, with a population of 12,036, located in southeast Wisconsin. Its location, west of I-94 in Kenosha County, between Chicago and Milwaukee, allows the town to evoke a quiet and comfortable charm and a rural quality of life while still being able to access quality entertainment, business, and industry.

“It boasts nine beautiful and scenic lakes offering plenty of recreational activities while still maintaining respite from life's pressures and a place to seek solitude. Some of these bodies of water were once home to ice harvesting operations, but now provide a place for year round recreational activities including fishing, hunting, trapping, boating, camping, biking, hiking, and golf courses.”

- from www.TownofSalem.net
Town of Salem Hamlets and Communities

Current State
And just what is a “hamlet”?

- Area that contains a small cluster of houses, a church, or local businesses such as a store or tavern.
- Administered by the town or municipality in which they exist.
- Serves as useful local reference to specific places and are important references and sometimes included in vital records.
- Does not have any governmental function but most are recognized for the common usage and are marked with official green informational highway signs listing the place name with the word 'Unincorporated' underneath.

- from Wisconsin Blue Book 2011 – 2012
What is a “town”? (1 of 2)

• One of three types of municipal government in the State of Wisconsin, the three being towns, villages, and cities
• Town governments govern those areas that are not included inside the corporate boundaries of either a city or a village
• Towns have only those powers granted by the Wisconsin Statutes
• In addition to their traditional responsibility for local road maintenance, town governments carry out a variety of functions and, in some instances, even undertake urban-type services
• The town board is usually composed of 3 supervisors, but if a board is authorized to exercise village powers or if the town population is 2,500 or more it may have up to 5 members

- From Wisconsin Blue Book 2011 – 2012
What is a “town”? (2 of 2)

- Town supervisors are elected for 2-year terms in the spring nonpartisan election
- They perform a number of administrative functions and the town board chairperson has certain executive powers and duties
- A town board may also create the position of town administrator
- Supervisors are expected to carry out the policies set at the annual town meeting
- The annual meeting is held on the second Tuesday of April (or another date set by the electors), and during the meeting all qualified voters of the town are entitled to discuss and vote on matters specified by state law

- From Wisconsin Blue Book 2011 – 2012
Functions & Services Provided by Salem ("TOS")

• Highway
• Fire & Rescue
• Sewer & Storm Water
• Clerk
• Treasurer
• Building Inspection
• Property Valuation
• Zoning
• Library
• Public Safety
• Municipal Court
• Town Governance and Administration
• Parks
• Garbage & Recycling
<table>

</table>
| Paving town roads               | • Laying brand new pavement                      | • 69 miles in Town of Salem                                             | • Town Board determines quantity of work  
• State determines work standards |
| Repairing/Maintaining Town Roads| • Crack filling  
• Shoulder work  
• Culvert clearing  
• Tree removal  
• Signage  
  • House address signs  
  • Traffic signs  
  • Street signs done by County | • Bulk of funding from Town  
• Eligible for WI Town Road Improvement Program funds  
  • Coordinated by County  
• Work must meet state standards  
• State requires all roads be rated every 2 years  
  • “1” = dirt  
  • “10” = brand new  
• About 2 years ago, TOS at 4-5  
  • Currently at 6-7  
• A village would take care of its own street signs | • Town Board determines quantity of work  
• State determines work standards |
## TOS: Highway (p. 2 of 2)

| Mow and maintain town buildings, parks, and other property, | • Cleaning, mowing, and equipment maintenance of all buildings, parklands, firehouses, and lift stations | • Salem takes advantage of State-bid contracts for salt  
• Priority for plowing  
  • #1 = main roads  
  • #2 = school bus routes  
  • #3 = remaining  
• Some coordination with other municipalities, based on handshake  
• No coordination with County | • Town Board                                                                                                                                                                                    |
| Plowing and Sanding                          | • Keep town roads clear of snow and ice                                      |                                                                                                                                                                                                      | • Town Board determines quantity of work (which determines some aspects of quality)        |
|                                              |                                                                            |                                                                                                                                                                                                      | • State and DNR determine standards for quantity of salt and usage of sand                   |
| Equipment Maintenance                        | • Fix and maintain all town equipment and vehicles                          | • Includes oil changes on all vehicles                                                                                                                                                    | • Town Board                                                                                                                                 |
| General assistance                           | • Highway personnel able to drive fire trucks  
• Pumpkin Daze prep and clean-up  
• Election equipment set-up and tear-down |                                                                                                                                                                                                      | • Town Board  
• Fire and Rescue  
• Town Clerk                                                                                                                   |
## TOS: Fire & Rescue

<table>
<thead>
<tr>
<th>Service</th>
<th>Description</th>
<th>Comments</th>
<th>Who Determines Service Level</th>
</tr>
</thead>
</table>
| Fire      | Chiefs are deputized by the Department of Administration for fire inspection | • State requires a “fire department”  
  • Engine with water  
  • So much hose  
  • So many people  
  • Training  
  • State and federal mandates provide specific requirements (like so much training). Some requirements come from nationally recognized standards such as NFPA while other requirements come from DOL, OSHA and NIOSH and are adopted by Administrative Rule which is enforced by WI statute.  
  • Town board determines service level beyond that |                                                                                       |
| services  |                                                                              |                                                                                       |                                                                                                                   |
| Rescue    | • Salem is at paramedic level                                                | • 3 levels of service  
  • EMT (care & transport)  
  • Advanced EMT  
  • Paramedic | • State requires at least lowest level of service  
  • State and federal mandates provide specific requirements (like so much training). Some requirements come from nationally recognized standards such as NFPA while other requirements come from DOL, OSHA and NIOSH and are adopted by Administrative Rule which is enforced by WI statute.  
  • Town board determines level beyond that (though the current paramedic level was determined by volunteers) |
| services  |                                                                              |                                                                                       |                                                                                                                   |

*Source: Wisconsin Taxpayers Alliance, www.wistax.org*
And what exactly is a mill rate?

This is what the town board proposes and the residents approve. The Town always gets what’s levied – regardless of property values!

\[
\text{Municipality Tax Levy} = \frac{\text{Municipality Property Value}}{\text{Municipality Mill Rate}}
\]

This is the value of all of the property in the town based on the last valuation.

This is the calculated number that is multiplied with the value of an individual property value to determine the property owner’s town taxes.
This is Salem’s 2014/2015 mill rate calculation

This is what the town board proposed in November, 2014 and the residents in attendance at the meeting approved.

This is the value of all of the property in the town based on the last valuation.

\[
\frac{\$3,428,415}{\$940,628,800} \times \$1,000 = \frac{\$3.64}{\$1,000}
\]

This is the calculated number that is multiplied with the value of an individual property value to determine the property owner’s town taxes.

See Appendix for reconciliation to expenses.
Other Issues

- Boundary Agreements
- Limits on Board Power
- Risks to Towns & Annexation
Boundary Agreements: Paddock Lake

• A boundary agreement exists with the Village of Paddock Lake
  – Agreement approved Department of Administration in October, 2007
  – Salem got...
    • End of Extra-Territorial Zoning of Paddock Lake over Salem
    • Paddock Lake would not accept any petitions for annexation from Salem landowners
  – Paddock Lake got...
    • Sewer agreement
      – TOS takes sewage from along F at retail price
      – VOPL pays for installation and full retail for service
      – VOPL pays for any new needed plant capacity
    • Guaranteed annexation of the “Village Growth Area” (see next slide)
      – Paddock Lake would not come to table without this provision
    • This annexation happens regardless of any incorporation of the Town of Salem
      – In effect for 20 years from date of DOA approval (VOPL/TOS Cooperative Plan, paragraph 7.01)...or October 2027
  – Value
    • Assessed value of Growth Area = $19,192,800
    • Revenue to Town @ 2014/5 mill rate of $3.64 = $69,862 will be lost to Town
Paddock Lake Growth Area

CURRENT Assessed value of Growth Area = $19,192,800

Revenue to Town @ 2014/5 mill rate of $3.64 = $69,862 will be lost to Town ... AT CURRENT RATES AND VALUES
Other Boundary Agreements

• An agreement is in place with the Village of Bristol that maintains the existing boundaries
• **No** boundary agreement exists with the Village of Silver Lake
• **No** boundary agreement exists with the Village of Twin Lakes (not contiguous)
## Limits on Board

**Comment**
- Agreement until 2027
- Own issues but gets mentioned
- Agreement
- Distance
Current State Summary

• The Town of Salem provides functions and services that meet and in most cases exceed State statute and regulation

• Salem provides functions and services that exceed adjacent villages.

• Salem’s mill rate is one of the lower ones in the area

• The risks to Salem’s borders will grow over time

• The county board still controls planning and development decisions
  – Could affect development in TIF district
Future Possibilities

“A study of the potential governance paths forward for the Town of Salem.”

“...because that's where I'm going to spend the rest of my life.”
- George Burns
Consequences of town governance

• **Strengths**
  – Electors have more direct governance
    • Annual meeting
    • Levy approval

• **Weaknesses**
  – As a town, Salem is at risk of having parts of its territory annexed by neighboring villages
    • Paddock Lake
    • Silver Lake
    • Bristol
    • Twin Lakes
  – The county has control over zoning and land use
    • Means a longer approval cycle for any changes
    • Could be an issue for investors and developers
Wisconsin Municipality Options

• In addition to towns, Wisconsin statutes establishes 2 other forms of municipalities
  – Villages
  – Cities
Municipality Options: Cities (1 of 2)

- An autonomous incorporated area within one or more counties
- As of 2009, Wisconsin had 190 cities
- Provides almost all services to its residents
- Has the highest degree of home rule and taxing jurisdiction of all municipalities
- Home rule authority allows cities to make their own decisions about their affairs, administration, and much of their public policy, subject to state law
- Cities in Wisconsin are divided into 4 classes
  - First class: Cities with 150,000 or more residents
  - Second class: Cities with 39,000 to 149,999 residents
  - Third class: Cities with 10,000 to 38,999 residents
  - Fourth class: Cities with 9,999 or fewer residents
- **Cities must detach farms to nearest towns if possible** (but there are cities that have farms! Very much up to the judge!)
Municipality Options: Cities (2 of 2)

• Governance
  – Governed by Common or City Councils consisting of the mayor or city manager and elected aldermen or council members.
  – Mayors have veto power
  – Can choose to hire a city administrator or city manager, instead of electing a mayor
  – In cities with city administrators, the head of the common council may be referred to as “mayor”
  – Alderman elected to represent specific areas or districts within the city
  – Officers include mayor or city manager, treasurer, clerk, attorney, and health officials
  – May also, by their discretion, have an engineer, comptroller, assessors, street commissioner, and a board of public works

• To incorporate as a city, a community must have at least 1,000 citizens if it is in a rural area or 5,000 if it is in an urban area
• Able to expand their area by annexing land from towns when land owners request local service
Municipality Options: **Villages** (1 of 2)

- An autonomous incorporated area within one or more counties
- As of 2009, Wisconsin had 403 villages
- Provides various services to its residents
- Has a degree of home rule and taxing jurisdiction
  - Allows them to make their own decisions about their affairs, administration, and much of their public policy, subject to state law.
- To incorporate as a village, a community must have at least 150 citizens if it is in a rural area or 2,500 if it is in an urban area.
- Able to expand their area by annexing land from towns when land owners request local service
Municipality Options: Villages (2 of 2)

• Governance
  – Governed by a Village President and a Board of Trustees
  – Village presidents do NOT have veto power
  – Villages may also elect to hire a village manager to oversee day-to-day operations instead of an elected village president
  – Village officers include a president, clerk, treasurer, and assessor
  – NO annual electors meeting or elector approval of levy
  – Trustees are elected at large by the electors of the village though 2 Wisconsin villages do have voting districts
    • Howard (Green Bay)
    • Germantown (Milwaukee)
City vs. Village

- Powers between the two are similar
- Differences are more in organization

<table>
<thead>
<tr>

<td><strong>Villages not required to have an official newspaper but may need to publish certain items in a newspaper</strong></td>
</tr>
</tbody>
</table>
What is “home rule”?

- Constitutional amendment of 1924 permits cities and villages to determine their local affairs and government, subject only to other provisions of the Wisconsin Constitution and to legislative enactments of statewide concern that uniformly affect every city and village.

- In other words, cities and villages can do anything they want unless prohibited by the State

- Towns can only do what is permitted by the State
Other forms considered by State

• Charter towns
  – If proclaimed by the town board and approved by the electors, town territory not subject to extra-territorial zoning or annexation by cities or villages unless approved by the town board
  – Last attempt by legislature failed in 2007

• Urban towns
  – If proclaimed by the town board and approved by the electors, town territory not subject to extra-territorial zoning or annexation by cities or villages unless approved by the town board
  – Last attempt by legislature failed in 2001

Difficulty in passage of these forms is with the larger representation of villages and cities in the legislature
# Options for Salem

<table>
<thead>
<tr>
<th>Options</th>
<th>Considerations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stay as is</td>
<td>• Border risks&lt;br&gt;• Paddock Lake annexation possibility after 2027&lt;br&gt;• County controls zoning &amp; development</td>
</tr>
<tr>
<td>City</td>
<td>• No farms, but could be pursued</td>
</tr>
<tr>
<td>Village</td>
<td>• Tends to be the preference in area</td>
</tr>
<tr>
<td>Variations</td>
<td>• Currently, no law permitting either&lt;br&gt;• Village form will be assumed although city form is possible&lt;br&gt;• Implications are essentially the same</td>
</tr>
</tbody>

</table>
Need for Police…
Wisconsin Law Enforcement (1 of 2)

• Hierarchy of law enforcement
  • Constable
    – Elected by a town
    – Few are left in state
    – No law enforcement requirements to hold position
  • Local police
    – Reports to municipal board
  • County sheriff
    – Top law enforcement in a county
    – Position established in the Wisconsin constitution
    – Only reports to the electorate
    – Can only be fired by the coroner (but this position does not always exist!)
      » Process exists for the governor to remove a sheriff
    – Sheriff can step in and take any call away from local authorities

- per meeting with Sheriff David Beth
Need for Police...
Wisconsin Law Enforcement (1 of 2)

- Law enforcement in a town is conducted by the county sheriff
- Sheriff’s office responsible for...
  - Law enforcement processes and procedures
  - Servicing the courts
  - Investigation
  - Managing the county jail
    - The county jail is the only jail in the county
    - Municipalities might have holding cells
- A village needs to fund police services ONLY IF its population exceeds 5,000 people.
- A local police force is defined as one car staffed at all times (24/7) with one officer
  - Results in needing about 5 FTE’s to cover shifts and weekends

- per meeting with Sheriff David Beth
Need for Police…
Kenosha County Sheriff (1 of 5)

– Coordinates with state patrol, DNR, other local authorities
  • FYI, Wisconsin does not have state troopers (meaning state police)

– Special services
  • A 12-person marine patrol for Lake Michigan
  • Co-jurisdiction on lakes with DNR
    – The DNR only enforces its own rules
    – The DNR may enter a premises without a warrant if looking for illegally procured game...the sheriff may not
  • 1 of 6 bomb units in state
  • Drug unit
  • Mental health transfers

- per meeting with Sheriff David Beth
Need for Police…
Kenosha County Sheriff Shared Services (2 of 5)

- Local municipalities may contract with the county sheriff to provide law enforcement services
- Can be contracted at any service level desired by the local board
- Included in the services are...
  - Recruitment, hiring, management, training, and dismissal of deputies
  - Equipment procurement and maintenance
    - Vehicles
    - Communication
    - Fire arms
    - Compliance with state laws and regulations
  - Insurance
  - Procedure and policy development, annual review, and state compliance
    - Ensures consistency across county
  - Evidence retention
  - Court appearances

Future Possibilities

These are all part of having a full-time police force: either a Village of Salem does them or the sheriff

- per meeting with Sheriff David Beth
Need for Police...
Kenosha County Sheriff Shared Services (3 of 5)

- Challenges facing small local police forces
  - High officer turnover
    - New officers take positions as stepping stone to larger forces
  - Providing state mandate of 24 hours of training / year / officer
  - Administration
  - Start-up
    - Recruitment
    - Policy development
  - Major crime situations
    - Sheriff winds up getting called in anyway
    - Inconsistency of procedures can be impediment to situation resolution
  - Providing officers for court appearance AND still maintain local service levels

- per meeting with Sheriff David Beth

A caution about outsourcing...outsourcing does not remove the responsibility from the board: the outsourcing contract must be well-constructed and managed on an ongoing basis.
With a shared service contract...

- Revenue from regular traffic citations ticketed by dedicated car go to municipality
- All hours are patrol hours
  - No administration
- Costs are for officer at an average deputy salary plus mileage charged at the IRS rate
  - Average daily patrol is about 50 miles per officer

- Can include...
  - Lake patrol
  - Local ordinance enforcement

- The Town of Salem, being a town, could contract with sheriff now for whatever service level it wants

- per meeting with Sheriff David Beth
Need for Police…
Kenosha County Sheriff Shared Services (5 of 5)

– Financial impact (based on 2014 Village of Bristol actual expenditure)...
  • $411,896 for full-time police coverage furnished through Kenosha County Sheriff
    – (see appendix for math)
  • Left the current Public Safety budget as is
    – Negotiating / savings opportunity
Need for Planning & Zoning Functions

- **Landowner Needs**
  - Re-zone
  - Variance
  - Addition to existing structure
  - New residential structure and/or accessory
  - Conditional Use Permit
  - Temporary Use Permit
  - Building Permit
  - Land division
  - Shoreland Permit
  - Comprehensive ("2035") Plan Amendment

- **County P&D Dept**
  - Set-backs and code verification
  - Site-plan Review
  - Conditional Use
  - Zoning Permit
  - Zoning Compliance (code violations)
  - Variance and Re-zoning
  - Shoreland Permit
  - Temporary Use Permit
  - Plat & Certified Survey Map
  - Comprehensive Plan Amendments ("2035")
  - Buildability letters
  - Zoning verification letters
  - Floodplain verification letters
  - Wetland delineation processing
  - Stormwater review

These functions would become the responsibility of a Village of Salem
Need for Planning & Zoning Processes

With incorporation, the county no longer would be part of any approval process. A Village of Salem would have to form a Village Board of Appeals.
Need for Planning and Zoning...
Files Taken from County

*Town of Salem property files held at Kenosha County. With incorporation, they would be moved to a Village of Salem*
Need for Planning and Zoning...

Costs

- The functions of planning zoning can be outsourced to the county
- Would provide same level of full-time service that Salem receives today
- Can take advantage of county efforts at providing more services online.
- Assuming a $30,000 cost based on Village of Somers experience
Governance Changes
Need for Additional Board Members

– The Town of Salem has 5 board members...
  • 1 town chairman
  • 4 board members

– Wisconsin requires villages to have 7 board members (at incorporation)...
  • 1 village president
  • 6 trustees

– Financial impact (assuming current compensation)...
  • $18,748 total annually for 2 additional board members
    – (see appendix for math)
Note about DNR

• Per Tim Andryk, DNR Chief Legal Consul
  – In 25 years, he does not remember where a Town vs Village was treated differently for grants or regulations.
  – Generally treated in the same category...just a municipality
# Limits on Board

<table>
<thead>
<tr>
<th>Town</th>
<th>Village</th>
<th>Ways to Check Village Board</th>
</tr>
</thead>
<tbody>
<tr>
<td>Levy Approval</td>
<td>By village board</td>
<td>• Trustee elections</td>
</tr>
<tr>
<td></td>
<td>By electors at special electors meeting</td>
<td></td>
</tr>
<tr>
<td>Planning and Zoning</td>
<td>County has final approval</td>
<td>• Outsource P&amp;Z functions to county to help prevent circumventing of processes</td>
</tr>
<tr>
<td></td>
<td>Village board considers all requests, county not involved</td>
<td>• Trustee elections</td>
</tr>
<tr>
<td>Public Safety</td>
<td>Sheriff is responsible for law enforcement</td>
<td>• Outsource policing to sheriff</td>
</tr>
<tr>
<td></td>
<td>Village board must establish full-time police force</td>
<td>• Sheriff is ultimate authority anyway</td>
</tr>
<tr>
<td>Board Salaries</td>
<td>Approved by electors</td>
<td>• Trustee elections</td>
</tr>
</tbody>
</table>

Note: even with outsourcing, the village board is still responsible and can “un-outsource” at any time
Village Cost Assumptions: **CAUTIONS**

- Cost and levy assumptions are **WORST CASE**
  - No savings opportunities in Public Safety costs
  - Full 7-seat board of trustees
  - **ALL** additional village costs are added to levy
  - No change in property values from 2014
    - But does include loss of value of Paddock Lake Growth Area
  - Assumes a straight conversion from “town” to “village”
    - Reality could be very different and could occur in a variety of ways (see “Making the Change” section)
# Village Costs & Levy (FY 2015) ($000)

</tbody>
</table>
Would there be additional Shared Revenue?

• In general, no

• Utility Aid would be impacted as some utility aid components pay Villages and Cities more than what is allocated to Towns
  – Example: the allocation of some payments include the Village/City getting 2/3 and County 1/3, and Towns getting 1/3 and Counties 2/3

• See Appendix for email from Department of Revenue
## Analysis: Stay As Town

<table>
<thead>
<tr>
<th>Strengths</th>
<th>Weaknesses</th>
</tr>
</thead>
<tbody>
<tr>
<td>• The Town of Salem provides functions and services that meet and in most cases exceed State statute and regulation – incorporating will add little ability to provide more</td>
<td>• Length of time to get zoning approvals from County</td>
</tr>
<tr>
<td>• Electors much more involved in governance</td>
<td>• Could affect development in TIF district</td>
</tr>
<tr>
<td>• Salem’s mill rate is one of the lower ones in the area</td>
<td>• Territory can be annexed away by neighboring villages.</td>
</tr>
<tr>
<td></td>
<td>• Results in less property value and higher mill rate.</td>
</tr>
</tbody>
</table>
### Analysis: Become Village

#### Strengths
- Borders are secure
- Investors/Developers may be more interested to deal with a village rather than a town because zoning and permitting would be faster with a village rather than having to go through both town and county
- Can take full advantage of “home rule”

#### Weaknesses
- Electors are no longer part of governance. With electors no longer in control of levy, no check on board on tax increases
- With County no longer involved in zoning and development decisions, village board alone controls decisions and relationships with developers, could lead to cronyism and corruption

---

**Future Possibilities**
Future Possibilities Summary

• The village and city forms of governance both are options if the town wishes to incorporate
• If incorporated, Salem would need to add...
  – Responsibility for a full-time police force ($411K)
  – Responsibility for planning and zoning ($30K)
  – 2 more board members ($19K)
• Borders would be secure
• Planning and zoning would be under Salem control
  – A consideration with new business park
• Only checks on a village board are elections
  – No electors’ annual meeting
  – No levy approval by electors
“If you want to make enemies, try to change something.”
- Woodrow Wilson

Making the Change

The process to go from where we are to where we might want to be
To become incorporated, there are 3 ways to do so...

• **Incorporation**
  – Salem could follow a traditional incorporation process

• **Annexation**
  – Salem could petition a neighboring village to be annexed

• **Boundary Agreements**
  – Salem could enter a boundary agreement with a neighboring village that would eventually call for the annexation of the entire town into that village
Method 1: Incorporation Process

• Petition signed by area residents
• Circuit court review
• Incorporation Review Board review
• Potential involvement of neighboring municipalities who may support or oppose the proposed incorporation
• Potential referendum vote by residents
• Incorporation certificate from the Secretary of State’s Office, if the above steps in the process are met
Incorporation Process

Municipal Incorporation Process

See sections 66.0203-66.0213 of the Wisconsin Statutes

START

- Publish a notice of intention to incorporate an incorporation petition
- At least 10 days
- Not more than 30 days

Circulate incorporation petition
- Within six months

File petition with the Circuit Court
- Within 90 days

Publication of notice of filing the petition and date of the Circuit Court hearing
- Not less than 10 days

Circuit Court conducts hearing on the standards in s. 66.0201
- Standards met
- Standards not met

Court dismisses the Petition

Petitioners MAY file a petition with different boundaries

Court grants the Petition and orders that an incorporation referendum be held

Incorporation Review Board submits its findings on the s. 66.0207 standards to the court.

Petitioner submits fee to the Incorporation Review Board
- Within 180 days, unless stayed by the court to attempt mediation
- Within 30 days

Any party in interest MAY request a public hearing before the Incorporation Review Board. Publication of notice is required.

Incorporation Review Board forwards petition to the Incorporation Review Board for its s. 66.0207 review

FINISH

- Referendum held. If a majority of residents vote in favor, then the territory becomes incorporated.
- Clerk of court forwards certification to the Office of the Secretary of State

http://doa.wi.gov/municipalboundaryreview/
Incorporation Standards, per Statute

• Compactness and homogeneity
  – Urban and cohesive
• Territory beyond the core
  – Development of vacant territory within three years
• Tax revenue
  – Can raise sufficient revenue to provide village services
• Level of services
  – Can any neighboring municipalities provide services better?
• Impact on the remainder of the town
  – Can any remaining town territory operate as a community?
• Impact on the metropolitan community
  – Will incorporation harm the larger region?
## Incorporation Feasibility

</table>
## Incorporation Feasibility

<table>
<thead>
<tr>
<th>Standard</th>
<th>Definition</th>
<th>Considerations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tax revenue</td>
<td>Can raise sufficient revenue to provide village services?</td>
<td>• Very likely</td>
</tr>
</tbody>
</table>
| Level of services               | Can any neighboring municipalities provide services better?                | • Only an issue if a neighboring village offers better  
  • Unlikely                     |                                                      |
| Impact on the remainder of the  | Can any remaining town territory operate as a community?                  | • If only NW corner left, doubtful                  
  town                            |                                                                           | • Can this be attached to Brighton or Wheatland?    |
| Impact on the metropolitan      | Will incorporation harm the larger region?                                 | • None                                              |
  community                       |                                                                           |                                                     |
Method 2: Annexation

• A territory of a town, or the entire town, could petition an adjacent city of village to annex it

• A petition to the city or village for referendum needs to be signed by...
  – 20% of electors of affected territory sign petition, AND,
  – Owners of 50% of the real property in affected territory

• Must be approved by...
  – Wisconsin Department of Administration
  – The board of the city or village

• The territory must be within the same county as the city or village unless the territory’s town board and county board approve
## Annexation Feasibility

<table>
<thead>
<tr>
<th>Standard</th>
<th>Considerations</th>
</tr>
</thead>
<tbody>
<tr>
<td>A territory of a town, or the entire town, could petition an adjacent city of village to annex it.</td>
<td>• For the entire town to petition annexation, the town board would have to take action to secure the petition signatures of needed electors and property owners</td>
</tr>
<tr>
<td>A petition to the city or village for referendum needs to be signed by…</td>
<td>• Would require public information meetings and communications similar to those for incorporation</td>
</tr>
<tr>
<td>• 20% of electors of affected territory sign petition, AND,</td>
<td></td>
</tr>
<tr>
<td>• Owners of 50% of the real property in affected territory</td>
<td></td>
</tr>
<tr>
<td>Must be approved by…</td>
<td>• If requirements are satisfied, DOA approval is likely</td>
</tr>
<tr>
<td>• Wisconsin Department of Administration</td>
<td>• Approval by a neighboring village for straight annexation is unlikely</td>
</tr>
<tr>
<td>• The board of the city or village</td>
<td>• Ag land not considered in the DOA decision</td>
</tr>
<tr>
<td>The territory must be within the same county as the city or village</td>
<td>• Requirement satisfied</td>
</tr>
<tr>
<td>as the city or village unless the territory’s town board and county board approve</td>
<td></td>
</tr>
</tbody>
</table>
Method 3: Boundary Agreements

• Per DOA, “a chance to step outside of conventional statutes governing municipal boundaries”
• “Limitless possibilities”...can include almost anything including...
  – Annexation
  – Detachment
  – Consolidation
  – Dissolution
  – Incorporation
  – Extraterritorial plat review
  – Extraterritorial zoning
• Can cover any length of time
• Example: a boundary agreement can be negotiated between two municipalities that has stipulations for shorter-term annexations and longer term consolidation/incorporation
Boundary Agreement Methods

• Cooperative Boundary Plans
  – Long-term or permanent agreements between two or more communities
  – DOA review and approval required

• General Agreements
  – Short-term agreements no longer that 10 years between 2 or more communities

• Stipulations and Orders
  – Agreements to settle annexation disputed being litigated in court
  – Agreements using state statutes to settle other boundary actions
Boundary Agreement Benefits (per DOA)

- **Cooperative**
  - Provide a chance for communities to focus on shared values, points of agreement, and solutions benefitting everyone

- **Proactive**
  - Enable communities to be proactive about their future rather than reactive

- **Flexibility**
  - Enable communities to address and resolve the issues that are important to them

- **Certainty**
  - Enable communities are better able to plan for their future

- **Save money**
  - Avoids costly litigation and identify service sharing opportunities to avoid costly duplication of services and capital facilities

- **Enforceable**
  - Safeguard community and landowners interests via a written contract
Boundary Agreement Feasibility

Considerations

• No real standards, the features of any boundary agreement are up to the parties
• Ag land not considered in the DOA decision
• Negotiating strategy would need to be developed to address short- and long-term issues of both parties
  • Shorter term financial needs
    • Fire and rescue services and infrastructure
    • Sewer infrastructure
    • Business development
• Boundary security
• Mill rate guarantees
• Inclusion of entire town in any future incorporation
• Commercial development
  • Current business areas
  • Future potentials
## Transition Considerations: Costs

<table>
<thead>
<tr>
<th>Incorporation</th>
<th>Annexation</th>
<th>Boundary Agreement</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Fee to state: $25K</td>
<td>• Attorneys</td>
<td>• Attorneys</td>
</tr>
<tr>
<td>• Attorneys for circuit court</td>
<td>• Negotiators</td>
<td>• Negotiators</td>
</tr>
<tr>
<td>• Attorneys for possible litigation</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Consultants/attorneys for prep of documents</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Making the Change
## Transition Considerations: Time

<table>
<thead>
<tr>
<th>Incorporation</th>
<th>Annexation</th>
<th>Boundary Agreement</th>
</tr>
</thead>
</table>
| • Average of about 2 years  
  • Can easily go longer depending on litigation | • Dependent on time for negotiation, board meetings and approvals, possible litigation, and referenda | • Dependent on time for negotiation, board meetings and approvals, and possible litigation  
  • No referendum required  
  • Just approval of the two boards |
## Transition Considerations: Challenges

<table>
<thead>
<tr>
<th>Incorporation</th>
<th>Annexation</th>
<th>Boundary Agreement</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Litigation possible with Silver Lake and Paddock Lake over northwest corner of Salem</td>
<td>• Cooperation required • Potential for neighbors to do this is unknown</td>
<td>• Cooperation required • Potential for neighbors to do this is unknown</td>
</tr>
<tr>
<td>• To prepare for referendum, plan for informational forums and communication to town residents would be required to explain the benefits of incorporating and the risks of not</td>
<td>• To prepare for petition signatures, plan for informational forums and communication to town residents would be required to explain the benefits of incorporating and the risks of not</td>
<td></td>
</tr>
<tr>
<td>• Possible that entire town might NOT be included in village due to density requirements</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Could create contention • With neighbors • Within town</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

112
Considerations based on other local efforts

• **Bristol Incorporation**  
  (per Village Administrator Randy Kerkman)
  
  – $350-400k approximate total costs
    • $25K state filing flat fee
    • $30-40K planning fees
    • Remainder were attorney fees
  
  – Held an initial hearing and then a public hearing every 3-4 months to which public was invited
  
  – Provided a lot of education, even met one-on-one with skeptics
  
  – Final referendum occurred in 2010
  
  – Attorneys were present at all 8 public meetings and then on a one-on-one basis to ease concerns
Considerations based on other local efforts

- **Somers Incorporation Costs**
  (per Town Clerk Tim Kitzman)
  - $25K state filing flat fee
  - $37K planner and attorney fees combined
  - Police will be contracted through County Sheriff
  - Began the incorporation process in summer of 2013, final referendum April, 2015

- Hearings
  - 2 hearings began in Madison (1 resident attended who was opposed)
  - 1 hearing at Somers town hall w/Review Board
  - 1 at the courthouse
Considerations based on other local efforts

• **Bloomfield Incorporation Costs**  
  (per Village President Ken Munroe)
  – $300K to $500K
    • $25K state filing flat fee
    • Remainder: legal fees
  – Took about 5 years
    • Major roadblocks and court fights with Genoa City and Lake Geneva
    • Boundaries were determined by Genoa City and Lake Geneva
    • Density was issue but they did have enough density to incorporate whole town
      – Genoa City and Lake Geneva stood in way
## Analysis: Method of Incorporation

### Strengths

<table>
<thead>
<tr>
<th>Incorporation</th>
<th>Annexation</th>
<th>Boundary Agreement</th>
</tr>
</thead>
</table>
| • Not dependent on other municipalities | • More cooperative  
• Would keep entire town together  
• Referendum required | • More cooperative  
• Would keep entire town together  
• NO referendum required  
• Would take less time  
• No real standards...can take any form |
| • Referendum required | • Referendum required  
• Would take less time than standalone incorporation | |
## Analysis: Method of Incorporation

### Weaknesses

<table>
<thead>
<tr>
<th>Incorporation</th>
<th>Annexation</th>
<th>Boundary Agreement</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Could be contentious with neighboring villages</td>
<td>• More cooperative</td>
<td>• More cooperative</td>
</tr>
<tr>
<td>• Going to court is a requirement</td>
<td>• Would keep entire town together</td>
<td>• Would keep entire town together</td>
</tr>
<tr>
<td>• Referendum required</td>
<td>• Referendum required</td>
<td>• NO referendum required</td>
</tr>
<tr>
<td>• Town could be split like Somers</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Could this be attached to Brighton or Wheatland?

...but would this become a “town island”?
What if entire Town is NOT included?

• Would have **TWO** municipalities
  – A **Village** of Salem **AND** a **Town** of Salem
  – Separate and distinct
  – **Both** would have to provide services
    • One could contract with the other

• Possible alternatives
  – Remaining town could be attached to adjacent town(s) with approval by DOA
  – A Village of Salem, once incorporated, could annex remaining Town of Salem...IF it hasn’t been annexed by another village in the meantime
  – Residents of Town may petition to be annexed into Village
What triggers incorporation?

• Traditional incorporation process
  – Expiration of boundary agreements versus time need to incorporate
    • Paddock Lake expires in 2027
    • Litigation with Silver Lake and Paddock Lake highly likely and will lengthen the process
  – Silver Lake candidates discussed annexation options during 2015 election campaign

• Annexation and boundary agreements
  – Receptiveness of village boards
    • Silver Lake has new members many of whom led dissolution campaign
    • Majority of Silver Lake voted for dissolution
    • Opportunity for cost savings between Salem and Silver Lake merger
    • Paddock Lake unknown although agreements for boundaries, fire, and sewer do now exist
Once incorporated, what then?

- Assign village as successor to town in contracts
- Determine policing approach (county contract vs. internal)
- Determine zoning approach (county contract vs. internal)
- Create new voting wards
- If separate town and village...
  - Separate/adopt ordinances
  - Determine who owns what and who will contract with whom
    - Buildings
    - Vehicles
    - Equipment
    - Utility district
    - Lands
  - Determine staffing needs for each
  - Determine if and where new boundary agreements should be put in place
Recommended Next Steps

The Incorporation Study Committee recommends these next steps...

“If you want to do something, do it!”
- Plautus (Roman playwright)
1) Decide if becoming incorporated is desired at this time, understanding the following...

- A village incurs higher operational costs
  - Police
  - Planning and zoning
  - Governance
- Transition costs will be incurred
  - Wisconsin Department of Administration (for traditional incorporation)
  - Attorneys/consultants
  - Town personnel will be focused on the incorporation
- A village’s borders are secure
- A village controls its own planning and zoning and can react more quickly to the needs of residents and businesses
- A village’s electors only control the village board through elections and referenda: annual meetings and electors’ approvals would no longer exist
- Some of the current Town of Salem could be left behind (depending on incorporation method)
- Are there timing opportunities/threats that need to be considered?
- **Are we willing to start spending money and focusing resources on this effort?**
2) Work through the density question

- Avoiding leaving a part of the town out of any incorporation effort is a large concern for the committee and many others in Salem
- Determining if a regular incorporation process would indeed risk splitting the town would help decide the method of incorporation
- The town can work with the County GIS office and (to some extent) with the DOA to address this question
- Need to understand the density standards of villages and the 4 classes of cities (see appendix)
3) Determine the best method to incorporate

- Petition a neighboring village to annex the town, or,
- Enter into a boundary agreement that would result in an eventual annexation/attachment of the town with a neighboring village, or,
- Follow the state incorporation process.
4) Develop a high-level project plan

• Staffing
  – All attorneys? (Like Bristol)
  – Minimal? (Like Somers)
  – Need for special negotiators
    • For annexation and boundary agreement methods
  – Involvement of residents

• Resident information plan

• Leadership
  – Day-to-day project manager/point-person
  – Involvement of town board
  – Roles for administrator and staff

• Time-line
5) Establish a transition budget

• Based on incorporation method and project plan
• Determine over what time period this budget should extend
• Determine where the money should come from
  – Diverted from other town funds and projects
  – Increase in levy
Appendix
Appendix Contents

• Additional Board Members
• Kenosha County Sheriff Contract
• Reconciliation of Town Expenses to Levy
• Village Voting Districts
• WI Statutory Standards for Incorporation Petitions
Additional Board Members Calculations

• Per each additional board member, at 2015 budget rates, annually...
  – $7,500 compensation
  – $574 taxes (7.0651%)
  – $600 supplies & expense
  – $700 dues
  – $9,374 total each
  – $18,748 total for 2 additional board members
Kenosha County Sheriff Contract (1 of 2)

• Based on 2014 Village of Bristol actual expense...
  – Includes labor, car, fuel
  – Total Bristol expenditure for 2 shifts over 7 days = $274,597, or $137,299 for 1 shift
  – A Village of Salem will require a full 24/7 coverage because population is over 5,000
  – Therefore...
    • $274,597 for 2 shifts over 7 days
    • $137,299 for 1 shift over 7 days
    • **$411,896 estimated expense for a Village of Salem**
    • Some costs could be offset by fine revenue
    • Overtime billed about $55.00 / hr if needed
Kenosha County Sheriff Contract (2 of 2)

- Based on 2014 Village of Bristol contract...

EXHIBIT A
VILLAGE OF BRISTOL CONTRACT 2014

(figures include benefits: FICA, WRS Prot. Retirement, Health Ins (F), Life Ins., Clothing Allowance)

NOTE: Deputy Sheriff Labor Contract is not settled for year 2014. (assumption..50% increase 1/1/14)

| 3 deputies (top, middle, & bottom of scale per KCDSA labor contract) |
|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|
| Step 9          | Top:            | $101,170.94     | 1st shift       |
| Step 5          | Middle:         | $87,533.84      | w/ 2nd shift diff. |
| Step 3          | Bottom:         | $82,849.09      | w/ 2nd shift diff. |
|                 | Total           | $271,553.87     |

3 divide by

- $90,517.96 Average annual salary/benefits

2,088 hours/year (2014)

$43.35 average hourly rate

8,760 hours coverage in village/year

$379,746 projected cost of labor - 2014 contract

$20,250 $18,000.00 Mileage @ .25 to cover Fuel/Maintenance/Repair (est. 51,000 miles yr)

$399,996 $274,097.00 Proposed: Total of 2014 contract

$33,333 $20,083.08 Due per month

Labor Calculations
16.5 hr/day
x 365 day/year
623
x 43.35
$261,097.00

2014 Top O/T Rate: $ 55.00 1st shift

*Note: Mileage is tracked monthly. At year end the actual mileage cost is compared to the contract and a credit or charge is issued to settle the difference.

“Constitutional home rule powers allow villages to enact charter ordinances governing matters of “local affairs and government.” Opting to have trustees represent districts instead of serving at large would, in my opinion, be a matter of local affairs and government. Charter ordinances are ordinances adopted pursuant to sec. 66.0101. They require an extraordinary vote and don’t become effective for 60 days. During that 60-day window, electors can put together a petition which, if sufficient, would require a referendum on the question. If there is a sufficient petition and electors don’t approve the charter ordinance, it does not take effect. If it does take effect, it modifies the village charter. The village charter is chapter 61 of the statutes since the legislature repealed all special (i.e., individual) municipal charters many years ago and replaced them with a general statutory charter. Chapter 61 does not provide for district representation so it would have to be provided for by a charter ordinance.”

-- Claire Silverman, Legal Counsel, League of Wisconsin Municipalities
Town vs Village Shared Revenue

“For County and Municipal Aid, there would be no impact as the payment has been "frozen" for a number of years.

For Expenditure Restraint, all municipalities may qualify and it's based on each municipality's tax rate exceeding 5 mills and restriction of budget growth. Therefore, there is no impact on the basis of a Town versus a Village.

For Exempt Computer Aid, there would be no impact, as it is based on the value of exempt computers in your municipality.

For Utility Aid, this would be impacted as some utility aid components pay Villages and Cities more than what is allocated to Towns. For example, the allocation of some payments include the Village/City getting 2/3 and County 1/3, and Towns getting 1/3 and Counties 2/3. If your Town receives utility aid, it's possible your utility aid would increase once incorporated into a Village.

**Characteristics of Territory 66.0207 (a) (reviewed by Department)**

1. Metropolitan Village or City: Entire territory shall be reasonably homogeneous and compact, taking into consideration natural boundaries, natural drainage basins, soil conditions, present and potential transportation facilities, previous political boundaries, boundaries of school districts, shopping and social customs.
2. Isolated Municipality: Must have a reasonably developed community center, including some or all features such as retail stores, churches, post office, telecommunications exchange and similar centers of community activity.
3. Isolated City or Village: Territory within the most densely populated ½ sq. mile (village) or 1 sq. mile (city) shall have an average of more than 20 housing units per quarter section or an assessed value of more than 25% is attributable to existing or potential mercantile, manufacturing or public utility uses.
4. Metropolitan City or Village: Must have the potential for residential or other urban land use development on a substantial scale within the next 3 years. Department may waive these requirements to the extent that water, sewer or geography prevents the development.
5. Tax Revenue 66.0207 (a) (reviewed by Department)

**Level of Services 66.0207 (b) (reviewed by Department)**

1. Both Isolated and Metropolitan City or Village: The territory has the potential tax revenue to support the anticipated cost of governmental services at a tax rate that compares favorably with the tax rate in similar areas and the same level of services.
2. Both Isolated and Metropolitan City or Village: A comparison of the level of governmental services desired or needed by the residents of the territory compared to the level of services offered by the contiguous village or city that is willing to annex and serve the territory.
3. Impact on Remainder of the Town 66.0207 (c) (reviewed by Department)

**Impact on Metropolitan Community 66.0207 (d) (reviewed by Department)**

4. Metropolitan City or Village: Incorporation of the territory will not make resolving metropolitan problems substantially more difficult.

---

1. 'Isolated municipality' means any existing or proposed village or city entirely outside any metropolitan community at the time of its incorporation.
2. 'Metropolitan community' means the territory of any city having a population of 25,000 or more, or any 2 incorporated municipalities whose boundaries are within 5 miles of each other whose populations aggregate to 25,000 persons, plus all the contiguous area which as a population density of 100 persons per square mile, or which the Department has determined on the basis of population trends and other pertinent facts will have a minimum density of 100 persons per square mile within 3 years.
3. 'Metropolitan municipality' means any existing or proposed village or city entirely or partly within a metropolitan community.
4. The 'level of services' standard only applies if a contiguous municipality files a resolution expressing a willingness to annex and serve the territory that is petitioned for incorporation.
